# Steam

noun \ˈstēm\

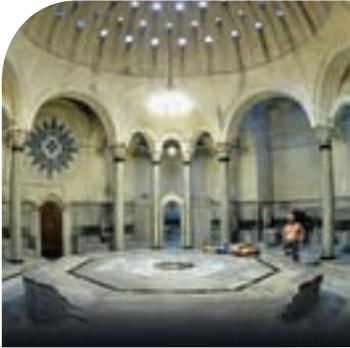

1. The invisible vapor into which water is converted when heated to the boiling point.

# ThermaSol Steam

noun \ˈthər-mə-säl,ˈstēm\

1. The daily luxury of being enveloped by the warm serenity of mist in the privacy of your own home.
2. A multi-sensory experience that fuses scent, sound, light and steam with seamless technological perfection.

# History of Steam

Steam therapy has been used for thousands of years to promote physical well-being. First adapted by the Turks and Romans, steam therapy produces a moist heat, which is thought to have therapeutic benefits for the cardiovascular and respiratory systems.

Today, you can find a version of a steam bath or steam room in almost any culture, from the Russian banya and the American Indian sweat lodge to the Finnish Sauna and the Turkish Hamman. In the United States, steam rooms are typically found in luxury spas or gyms, but thanks to modern technology and greater consumer awareness, steam showers are becoming an increasingly popular amenity in private residences.

# Discover the Benefits

Since the time of the Greek and Roman empires, medical practitioners have advocated for the health benefits of steam therapy.

**Detoxification** – The soothing warmth of steam opens pores. When one begins to sweat profusely, the skin on the body can release toxins from everyday living.

**Stress Relief** – The heat and moisture combination in steam rooms offers a relaxing atmosphere to calm the mind and lower stress levels.

**Respiratory Health** – Those with respiratory problems enjoy steam therapy because it has been known to help soothe throat irritation, loosen phlegm in the lungs and loosen mucous in the nose.

**Muscle Relaxation** – Steam showers generate heat, which in turn helps aching muscles relax. Widening blood vessels help release tension by allowing more oxygen to flow through the muscle tissue.

**Skin Rejuvenation** – Steam has been known to hydrate skin pores and open them up so that toxins can be flushed out. More efficient blood circulation also gives skin a healthy glow.

**Better Sleep** – There has been significant scientific data detailing the correlation between steam therapy and quality sleep patterns. Relaxing for just 20 minutes at the end of the day in a steam shower may help to regulate the body's core temperature and increase blood flow.

**Overall Wellness** – Many individuals have attested to the positive effects steam showers have on their mental health, including such things as helping relieve depression and anxiety.

# The Science of Steam

Numerous scientific studies conducted over the last 20 years support centuries of traditional steam use.

- According to the National Center for Biotechnology Information (NCBI), steam inhalation alleviates the symptoms of cold and nasal congestion. The study was conducted at the Common Cold Unit at Harvard Hospital and published in the "British Medical Journal" in 1989.
- A research study performed at the University of Munich's Institute of Medical Balneology and Climatology also found that steam therapy is useful to those with asthma, allergies, bronchitis and sinusitis.
- A study conducted by H.I. Robins at the University of Wisconsin found that the "mood states of cancer patients following whole-body hyperthermia show a significant improvement in depression." This was attributed to the increased B-endorphins, the same endorphins released with exercise.
- Long-term steam room use may help lower blood pressure and improve heart function, according to researchers at the Department of Internal Medicine and Biocenter at the University of Oulu in Finland.

# Why ThermaSol is the Industry Leader

## **Lifetime Warranty No Questions Asked!**

Warranty: PRO and SSA - An industry first. Only from ThermaSol. After the in-home warranty, send the unit to the factory and ThermaSol will repair the failure, including parts and labor!

## **SmartSteam™ (patented)**

The most desired feature of any steam shower system! You won't see this cutting-edge technology, but you WILL FEEL IT! Enter a new level of relaxation with SmartSteam™, the ultimate in temperature control and energy conservation.

## **PowerFlush**

Specifically engineered to purge calcification build-up from the inner-tank. This unique system uses a combination of household water-line force (40 to 80 lbs.) and specially designed innertank "speed slots" to increase the water velocity. This concentrated thrust of water pressure effectively sweeps the bottom of the tank removing build-up.

## **FastStart™ Technology (patented)**

Steam in seconds, not 4 to 8 minutes! For vacation homes, this feature can be enabled/disabled using a Signature Series controller.

## **All Metal Controls with Advanced PVD Lifetime Finishes**

No plastic controls!

## **Whisper Quiet (patented) Only from ThermaSol**

No potential water hammer or noisy water solenoid valves.

## **Digital Two Way CAN-bus Technology**

Only from ThermaSol. The safest and most reliable communication technology in the industry.

## **Constant Steam at a Constant Rate**

Only from ThermaSol. No irritating steam lags and bursts.

## **Thermostatically Controlled Steam Head with Integral**

### **Aromatherapy Reservoir (patented)**

Only from ThermaSol. Sleek, minimalist design comes with a PVD Lifetime Finish and retracts into the shower wall when not in use.

## **Water Conservation; The Green Side of Steam**

ThermaSol Steam Shower units use only one gallon of water to power a 20-minute steam shower session, compared to regular showers, which consume a minimum of 2.5 gallons per minute.

## **Superior Style**

Only manufacturer that offers matching controls, light/music system and steam heads to create a seamless look with virtually any faucet/shower fixtures chosen. The seven versatile styles: Contemporary, Traditional, Modern, Modern Recessed, Deco, Icon and Regency make coordinating the design... simple.

## **No Upsizing**

ThermaSol generators can be installed up to 50 feet away from the shower without upsizing.

## **Simply Sized Only from ThermaSol**

ThermaSol generators are easy to size LxWxH = Cubic Feet. No complicated formulas.

# Multi-Sensory Steam Shower Experience

ThermaSol brings the steam shower experience full circle by combining hydrotherapy, chromatherapy and aromatherapy into one session. The combination of these three natural holistic remedies

refreshes the mind and body, while delivering a full dose of tranquillity through steam, sight and scent.

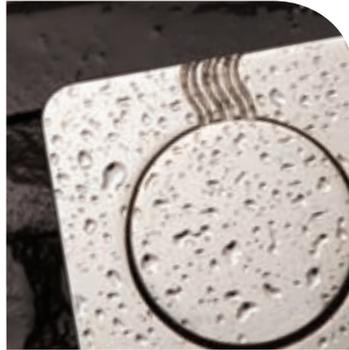

**Chromatherapy:** This alternative healing method uses color and light to balance energy wherever the body is lacking. The underlying principle is that certain colors, or the absence of color, can affect your body and mood.

**Hydrotherapy:** For centuries, people have relied on the restorative power of water to soothe pain and remedy illness. Hydrotherapy is the use of steam and vapor to promote ultimate relaxation. Conventional uses of hydrotherapy have been known to help stimulate circulation, tone body tissues, alleviate pain, relax nerves and enhance overall well-being.

**Aromatherapy:** Aromatherapy is the use of essential oils that are sourced from aromatic plants and flowers. These oils stimulate the sense of smell and are absorbed through the skin. Rejuvenating scents are believed to improve mood and promote wellness.

# Therapy of Light and Sound

Committed to creating a spa experience that touches all of the senses, ThermaSol has integrated a soothing symphony of sounds into its steam shower

environments with the Bluetooth® enabled Serenity Light & Music System. Combining the relaxing benefits of chromatherapy and music, the Serenity Light & Music System offers a high intensity, full spectrum LED light system with gradually changing color palettes; built-in FM

receiver; inputs from portable CD, DVD, TV or satellite radio; and compatibility with a Bluetooth® enabled MP3 player, iPhone®, iPad® or Android™. The beauty of the Serenity Light & Music System is that it allows users to enjoy personal music playlists from anywhere in the bath space and create a custom steam shower experience every time. The system is also programmable from anywhere within the home's WiFi range via an easy-to-install module and free to download Solitude Mobile Application.

# Over 50 Years of Steam Shower Innovation

ThermaSol has a 50-year tradition of steam industry firsts, beginning with the creation of the first residential steam bath in 1958, and continuing today with the launch of the first mobile application that can be used to control a steam shower system. Through it all, ThermaSol has emerged as an iconic industry leader, innovating the most technologically advanced steam shower products that provide the most seamless and serene spa experience possible.

ThermaSol is founded by David Altman, who designs, builds and installs the first mini-electric steam shower for a luxury Park Avenue apartment with his apprentice son, Murray. Affluent homeowners almost immediately gravitate towards the steam shower, as they recognize it as a luxury home amenity with health and relaxation benefits.

**July 7, 1958**  
It all starts with David Altman's Patent #3007178 for a combination steam bath and shower.

Sol, ThermaSol's proverbial mascot and steam ambassador is born.

1958

1967

Legendary Interior Designer, Dorothy Draper designed bathroom concepts and incorporates ThermaSol steam bathing.

1968

**June 29, 1970**  
The steam shower experience is taken to the next level with Murray Altman's Patent #3655135 for a steam outlet head with dispenser for fragrances and/or medicants.

Murray takes over operations of ThermaSol, and begins expanding the ThermaSol model to the hotel industry. ThermaSol Steamsuites were installed in thousands of hotels and motels across the country.

1971

ThermaSol moves to Sylmar, California in order to accommodate their ever-expanding line of products, which now includes wall surrounds and whirlpool bathtubs.

1977

ThermaSol creates the world's first patented self-cleaning whirlpool tub.

1979

Murray's son, Mitch, joins ThermaSol full-time.

1983

Mitch officially takes over the company reigns, shifting ThermaSol's focus from the whirlpool market back to steam bath products. Furthering steam shower innovations.

1989

ThermaSol adds two new digital time and temperature controls to their steam shower systems.

1991

ThermaSol moves to a 25,000 square-foot manufacturing facility in Simi Valley, California, the company's current headquarters.

**August 8, 1994**  
ThermaSol takes a significant step forward with Mitch Altman's Patent #5616265 for a steam generating apparatus and method for controlling steam all-in-one.

1993

1994

PowerFlush™ is specifically engineered to purge calcification build-up from the inner-tank.

1995

ThermaSol launches the first generation SmartSteam™ technology (PRO-HEAT), which produces the precise volume of steam required to maintain the desired room temperature while conserving energy.

1996

ThermaSol introduces its "In Shower Heavenly Fog Free Mirror collection"

2001

ThermaSol launches the first Thermostatically Controlled Retractable steam head, dispersing steam quietly and safely in a 360-degree pattern.

2004

ThermaSol wins a GOOD DESIGN Award at Chicago Athenaeum Museum of Architecture and Design for its Thermostatically Controlled Retractable Steam Head with Integral Aroma Oil Well.

ThermaSol develops FastStart™ Technology, becoming the first steam manufacturer to develop a system that generates steam in seconds, not 4-8 minutes.

2005

ThermaSol introduces the ProSeries™ generators with SmartSteam™ and FastStart™, designed to make installation easy for plumbers. It is the top-selling unit to this day.

2006

ThermaSol becomes the first steam manufacturer to offer a complete steam shower experience by launching the Serenity Light & Music System.

ThermaSol becomes the first steam shower manufacturer to integrate Bluetooth® technology in their Serenity Light & Music System package.

2011

ThermaSol unveils 4 additional control series that match a wide range of faucet styles.

2012

ThermaSol launches the steam shower's first mobile control application, Solitude, giving users the ability to control everything from steam flow and duration to personal music playlists and TV from their mobile device — all while in the steam shower.

**May 21, 2008**  
A key technology for ThermaSol's current steam shower systems is locked in with Mitch Altman's Patent #5805765 for SmartSteam™, a steam generating apparatus with water cooled solid state switch.

ThermaSol adds sauna heaters and sauna rooms to its line of steam bath products.

**October 28, 1996**  
ThermaSol systems become even more user-friendly with Mitch Altman's Patent #5805765 for a wall-mounted steam generating apparatus and steam head.

ThermaSol introduces Reflections, the first steam/fog free mirror fixture.

**February 22, 2001**  
Safety and efficiency were top priorities with Mitch Altman's Patent #6505781 for a self-contained, automatic, mechanically opening and closing steam head with built-in thermostat.

# Getting Started

How to Specify Steam  
with ThermaSol

Building a Steam Shower

# Building Your Steam Shower

ThermaSol has taken the guesswork out of the specification process, distilling it down to the four essential steps.

## Step 1

### Calculate Shower Size

Simple Sizing Formula:  $L \times W \times H = \text{Cubic Feet (CF)}$

EXAMPLE:  $4' \times 5' \times 8' = 160 \text{ CF}$

For every foot of ceiling height over 8 ft. use the next larger steam generator.  
All interior wall material is irrelevant.

Installation note: Lowering ceiling height to 8 ft. helps create a much more efficient steam room.  
We do not recommend a ceiling height exceeding 10 ft.

## Step 2

### Choose a generator. (page 29)

Based on the Simple Sizing formula ( $L \times W \times H = \text{Cubic Feet}$ ), select a steam generator and choose the generator's location.

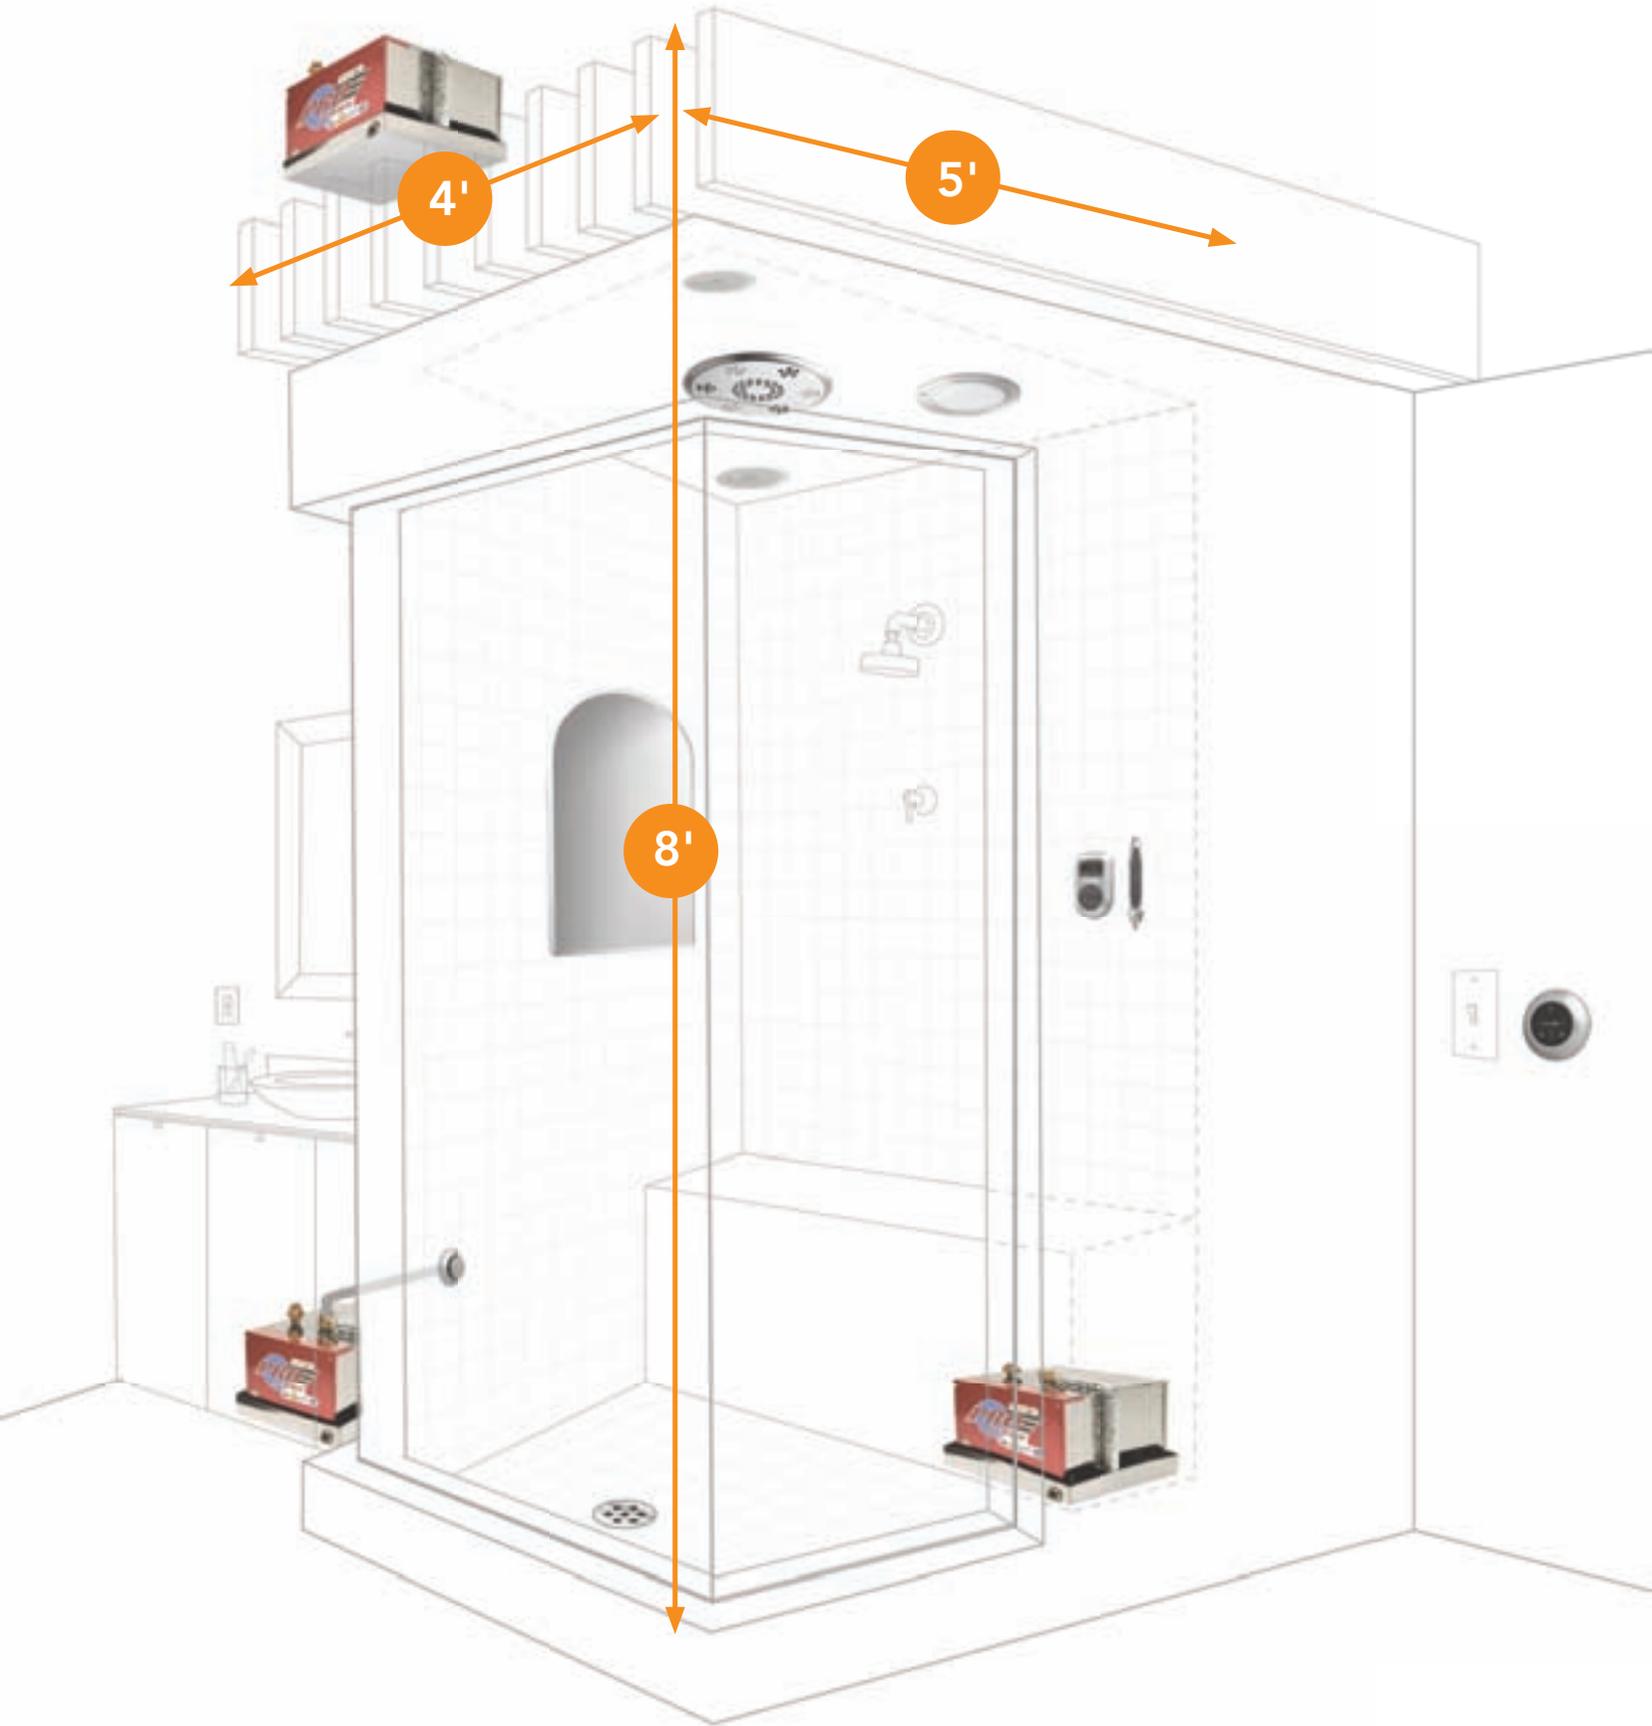

ThermaSol's generators can be placed up to 50 feet from the shower.  
Attic, closet or below a sink are ideal locations.

EXAMPLE:

ProSeries™ (Features included with the ProSeries™ Generator are shown below.)

Model	Description	TELEPHONE	FAST PRINT	AUTO	SMART STEAM	WALL MOUNT	LIFETIME WARRANTY	TOTAL PRICE
PRO-84	Generates up to 84 CF / 6 kW	( 1,825	+ 345	+ 395	+ 495	+ ✓	+ ✓ )	= \$3,060
PRO-140	Generates up to 140 CF / 8 kW	( 1,925	+ 345	+ 395	+ 495	+ ✓	+ ✓ )	= \$3,160
<b>PRO-240</b>	<b>Generates up to 240 CF / 10 kW</b>	<b>( 2,290</b>	<b>+ 345</b>	<b>+ 395</b>	<b>+ 495</b>	<b>+ ✓</b>	<b>+ ✓ )</b>	
PRO-395	Generates up to 395 CF / 12 kW	( 2,505	+ 345	+ 395	+ 495	+ ✓	+ ✓ )	= \$3,740
PRO-500	Generates up to 500 CF / 15 kW	( 2,875	+ 345	+ 395	+ 495	+ ✓	+ ✓ )	= \$4,110
PRO-650	Generates up to 650 CF / 20 kW	( 4,464	+ 345	+ 395	+ 495	+ ✓	+ ✓ )	= \$5,699
PRO-850	Generates up to 850 CF / 24 kW	( 4,780	+ 345	+ 395	+ 495	+ ✓	+ ✓ )	= \$6,015
PRO-1150	Generates up to 1150 CF / 30 kW	( 5,205	+ 345	+ 395	+ 495	+ ✓	+ ✓ )	= \$6,440

These cutting edge features are included in the TOTAL PRICE

EXAMPLE: 4' x 5' x 8' = **Generator = PRO-240**

# Building a Steam Shower

**Step 3**  
Choose control style  
and spa package.  
(page 39)

Match ThermaSol control and package to  
faucet and shower set styles.

Solitude Mobile Application - See Page 53.

## Step 4 Choose accessories. (page 56)

Select Bluetooth® enabled Serenity Light & Music System for the complete spa experience. See Page 57.

Add more steam shower options, such as a Remote, Easy Start Control for control outside the shower or bath area and a Fog-Free Mirror for shaving inside the shower.

## The SmartSteam™ Advantage

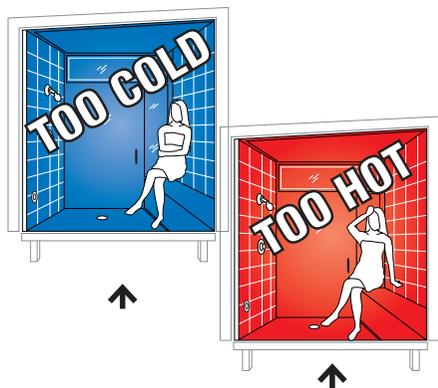

### SmartSteam™ (patented)

### The most desired feature of any steam shower system!

You won't see this cutting-edge technology, but you WILL FEEL IT! Enter a new level of relaxation with SmartSteam™, the ultimate in temperature control and energy conservation.

**You DON'T want this!**

Generators without SmartSteam™ have annoying temperature fluctuations.

**You DO want this!**

SmartSteam™ delivers the ultimate in temperature maintenance - without annoying temperature fluctuations! The optimum in user comfort.

**How it Works:** SmartSteam™ produces the precise volume of steam required to maintain your desired room temperature while conserving energy and providing a quiet relaxed experience. This is accomplished by metering the output of power; the unit only uses enough power to support your requested temperature; no more, no less.

For example: if you have a 10 kW generator and you set the temperature to 100° F it will use all 10 kW to get to your set temperature, but to maintain your temperature it will scale back the power to only what is needed; perhaps 3 kW thereby saving energy.

# ProSeries™ Residential Generators **BEST**

ProSeries™ (Features included with the ProSeries™ Generator are shown below.)

Model	Description	Included	TOTAL PRICE

## Split Tank Technology

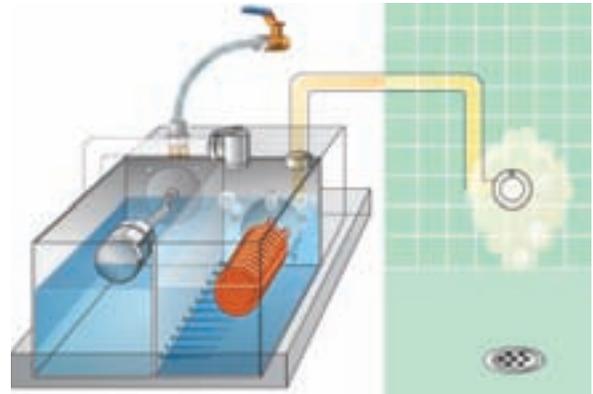

**Providing constant steam at a constant rate while ensuring trouble free reliability!**

Designed for the AF and ProSeries™ Generators

How does Split Tank technology enhance your steam experience?

Water is pre-heated in the water reservoir and passes to the boiling side only at the exact rate of steam production. This highly efficient system delivers uninterrupted boiling, providing constant steam flow at a constant rate...and can't be found on competitive brands.

This unyielding steam production allows you to install the steam unit up to 50 ft. from the shower enclosure without having to purchase a larger generator - no upsizing, and because the water feeder is removed from the boiling process it extends the life of the steam unit.

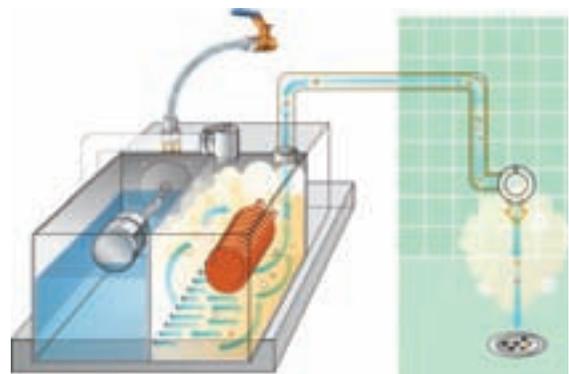

## PowerFlush

**It's like having your own service technician!**

Engineered for the AF and ProSeries™ Generators

When it comes to inner-tank maintenance, are you aware that there is only one system that actually works?

PowerFlush was specifically engineered to purge calcification build-up from the inner-tank. This unique system uses a combination of household water-line force (40 to 80 lbs.) and specially designed inner-tank "speed slots" to increase the water velocity. This concentrated thrust of water pressure effectively sweeps the bottom of the tank removing build-up.

## SteamSuite Series Generators **GOOD**

### SteamSuite Plus with FastStart™

This series uses the same 1st Generation analog technology that can be found on all competitive generators worldwide. For 2nd generation digital CAN-bus units, and the latest technologies, please review the ProSeries™ and AF Series, pages 31 and 33.

**COMPLETE SYSTEM  
ONE PRICE - REGARDLESS  
OF FINISH**

Model	Description	Included	Control/Steam Head Included	Included	Manual Power Flush Included	TOTAL PRICE
SSP-ACR-XX* **	Analog Generator for Acrylic unit / 3.5 kW	( 1,005	+ 240	+ 345	+ 295 )	= <b>\$1,885</b>
SSP-84-XX*	Analog Generator up to 84 CF / 6 kW	( 1,218	+ 240	+ 345	+ 295 )	= <b>\$2,098</b>
SSP-140-XX*	Analog Generator up to 140 CF / 8 kW	( 1,430	+ 240	+ 345	+ 295 )	= <b>\$2,310</b>
SSP-240-XX*	Analog Generator up to 240 CF / 10 kW	( 1,645	+ 240	+ 345	+ 295 )	= <b>\$2,525</b>

Control, Steam Head, PowerFlush and FastStart included in **TOTAL PRICE**

\*Select desired finish and replace XX with code below.

PC - Polished Chrome

PB - Polished Brass

SN - Satin Nickel

ORB - Oil Rubbed Bronze

\*\* Acrylic modules must be steam rated from their manufacturer.  
ThermaSol does not warranty other companies' acrylic products for its steam shower equipment.

Steam Generator  
18 1/2" L x 8" W x 13" H

MODEL	WIRE	BREAKER	ELECTRICAL
SSP-ACR-XX ‡	10	20	Hardwire
SSP-84-XX	10	30	Hardwire
SSP-140-XX	8	40	Hardwire
SSP-240-XX	8	50	Hardwire

‡ Acrylic module must be approved for steam use.

**Simply Sized - Calculate: L x W x H then: choose the appropriate model from list above, all interior wall material is irrelevant. For every foot of ceiling height over 8 ft. use the next larger steam generator.**

SteamSuite analog generators should be used for direct comparisons with other manufacturers. They include features that either need to be purchased or are not available in competitive offerings: FastStart™, Stainless Steel Construction, Integral Drain Pan, and Metal Controls **but for state-of-the-art technologies please review the ProSeries™ and AF Series found on pages 31 and 33.**

- 1st Generation Technology used by all competitors. It's our price/project item; use for direct comparisons.
- 6 year "no questions asked" factory warranty
- 1 year in-home warranty
- FastStart™ steam in seconds...not minutes (patented)
- PowerFlush pressurized inner tank cleaning system
- Constant steam at a constant rate
- Can be plumbed 50 ft. from the shower without purchasing a larger kW unit
- Stainless steel construction
- Integral drain pan - standard
- Time and temperature control; all metal construction - not plated plastic
- Lifetime PVD plating technology on control and steam head

#### Tips:

- This generator comes as a package and won't work with the Temp-Touch or the Signature Series control sets
- For more features, see the ProSeries™ and AF Series generators on pages 31 and 33
- This generator includes manual PowerFlush
- Operates with voltages between 208VAC & 240VAC

## NEW Solitude Mobile Application to control steam shower environment

Technology and the complete luxury spa experience truly go hand-in-hand. This is the guiding principle behind every ThermaSol product, and the company's new Solitude Mobile Application is no exception. As the steam shower's first and only mobile control application, Solitude literally puts the ThermaSol steam shower system and the entire Web in the palm of your hands via Apple® iOS or Android™ mobile devices.

### Key Features

- Available for download through the iTunes® App Store and Google Play™
- Compatible with Apple® iOS 4.3 and up; Android™ 2.2 and up
- Control the ThermaSol steam shower system or ThermaSol Bluetooth® enabled Serenity Light & Music System from an array of smartphone and tablet devices
- Set and control steam shower preferences for multiple users
- Remotely activate steam and monitor current room temperature from anywhere within the home's WiFi range.
- Set steam shower time sessions
- Set desired steam session temperature
- Select from a dozen light settings, ranging from a soothing mood light or bright shower light to one of the preset chromatherapy chakras for the ultimate personal shower experience
- Adjust volume in light and music mode
- Access FM radio tuner and FM preset
- Access music from Pandora®, Spotify™ or other streaming music services
- Adjust bass, midrange, and treble with the built-in equalizer
- Select music from personal playlists or the extra input channel wirelessly connected to the home stereo receiver, cable box, satellite receiver or DVR
- Access all available diagnostic and maintenance features of ThermaSol products

FFM-ECLIPSE	Eclipse Fog-Free Mirror - Beveled Edge	\$599
FFM-CUPOLA	Cupola Fog-Free Mirror - Beveled Edge	\$599

Low voltage - Only 12 volts at mirror

Fog-Free mirrors are not only convenient and practical; they make a great design statement in any bathroom. Eclipse, Cupola and Avant feature a one-inch beveled edge, Rhombus features a polished plain edge.

Whether it be a new construction or remodeling project or an existing bathroom or shower, the tastefully understated fog-free mirrors are amazingly simple to install. Safe, convenient and a functional design element.

Available in 4 distinctive designs: Avant, Rhombus, Eclipse, and Cupola.

#### Accessory Tips:

- Fog-Free Mirrors can be installed inside or outside the shower
- You will need to wire it to an electrical on/off switch or a timer
- Mirrors hang only 7/8" off of the wall

Do not use these products unless you have consulted with your doctor and received written permission to do so. Use of these products may be hazardous to your health. Never attempt to fill aroma reservoir/well on the steam head when unit is in the "ON" position. Severe burns will occur.

## Aromatherapy for the Mind and Body

Elevating the home spa experience to a higher level of complete renewal with ThermaSol's Essential Oils. Simply add two to four drops of these aromatic oils to the steam head reservoir/well in the steam shower.

### Essential Oils

**French Lavender** Promotes calming and relaxing effects.

**Portuguese Eucalyptus** Stimulates, soothes and cools.

**Italian Bergamot** Citrus Scent that reduces anxiety, depression and insomnia.

**Madagascar Ylang Ylang** Effective aphrodisiac with a tranquil, warm aroma.

**French Rosemary** Calms nerves, improves memory, confidence and creativity.

**Egyptian Geranium** Relieves stress, anxiety, fatigue and PMS symptoms.

**Energize Oil Blend** Invigorates the senses, improves circulation and relieves headaches.

The preceding statements and claims about ThermaSol's Essential Oils have not been medically evaluated. Do not use these products unless you have consulted with your doctor and received written permission to do so. Use of these products may be hazardous to your health.

B01-1575	Jasmine Precious Oil - 5ml bottle	\$140
B01-1578	Rose Precious Oil - 5ml bottle	\$120

Do not use these products unless you have consulted with your doctor and received written permission to do so. Use of these products may be hazardous to your health. Never attempt to fill aroma reservoir on the steam head when unit is in the "ON" position. Severe burns will occur.

### Aromatherapy for the Mind and Body

Elevating the home spa experience to a higher level of complete renewal with ThermaSol's Precious Reserve Aromatherapy Oils. Simply add two to four drops of these aromatic oils to the steam head reservoir in the steam shower.

#### Precious Reserve Oils

**Bulgarian Rose** Absolutely uplifting and a natural aphrodisiac. Because of its labor intensive nature, True Rose Absolute is an extremely rare oil. It takes 30 rose blossoms to produce 1 drop of this deeply sweet, floral essential oil. ThermaSol guarantees authentic certified and organic Rose Oil shipped directly from our Bulgarian distillery to you.

**French Roman Chamomile** Relieves emotional anxiety and tension. Medieval monks planted the low growing Roman Chamomile to make "healing beds" in their gardens for invalids to lie upon to relieve depression. ThermaSol's Roman Chamomile comes to you from the mountains of Provence, France. Our organically grown and certified Chamomile is the most effective oil available to relieve muscle cramps and spasms.

**Indian Jasmine** Eases worry, anger, depression and irritability. ThermaSol's Jasmine is grown and distilled in East India where women dress their hair with its white flowers. Poetically known as "moonlight of the grove," Jasmine Oil has a gorgeous and complex floral scent and is known for its soothing and aphrodisiac effects.

**Italian Neroli** Alleviates depression, insomnia, and is a natural skin beautifier. Neroli was named after the 16th century Italian princess of Nerola who loved its delicate orange-floral fragrance. The oil is derived from the blossom of the bitter orange. ThermaSol's certified organic Neroli Oil is harvested near the border of France and Italy and is much higher quality oil than any other you will find on the market from Tunisia or Morocco.

The preceding statements and claims about ThermaSol's Essential Oils have not been medically evaluated. Do not use these products unless you have consulted with your doctor and received written permission to do so. Use of these products may be hazardous to your health.

## Hydrosols

B01-2001  
Bulgarian Rose Hydrosol  
90ml bottle

### Hydrosols

MODEL	DESCRIPTION	NET PRICE
B01-2001	Bulgarian Rose Hydrosol - 90 ml bottle	\$20
B01-2002	French Lavender Mist Hydrosol - 90 ml bottle	\$17

Do not use these products unless you have consulted with your doctor and received written permission to do so. Use of these products may be hazardous to your health. Never attempt to fill aroma reservoir on the steam head when unit is in the "ON" position. Severe burns will occur.

Our truly refreshing and therapeutic Bulgarian Rose Hydrosol and French Lavender Mist gently hydrate, soothe and nourish your skin. Made from only the richest, 100% organic plants in the world, ThermaSol's body sprays are anti-bacterial and help restore and protect the natural PH balance of your skin.

Our pure and gentle Rose Hydrosol is the authentic and genuine co-product of rose distillation ~ not just rose-scented water. Our relaxing Lavender Mist is made from authentic, organic lavender angustifolia from Provence, France.

# Commercial and Saunas

SuperDuty Generators

PowerPak II Generators

Day Spa Generators

Commercial and Residential Saunas

**COMPLETE SYSTEM**  
all parts below included

Unit:  
18.5" W x 21.5" D x 48" H  
Ease of portability via hand  
truck style wheels.

Master Control Panel

Outside Room Timer

Commercial  
Steam Head

In-Room Temperature Sensor

## Simply Sized

1. Calculate: L x W x H then:
2. Choose the appropriate model from above; all interior wall material is irrelevant.
3. To build a superior steam room, ceiling height should not exceed 8 feet.

For every foot of ceiling height over 8 feet use the next larger generator.

## SuperDuty Generator – Heavy Duty Industrial Grade

Model	Voltage	Phase	Wire	Amps	Heaters x3	Breaker	Cu.Ft.	Kw	Price
TSD-600-240	208/240VAC	3	6	39A	5000W	50A	600	15	\$14,920

TSD-1600-480	480VAC	3	6	36A	10000W	50A	1600	30	\$19,640

## Complete System – Components Included:

Model	Description	Price
SDMC-PC	Master Control Panel	Included
OST-PC	Outside Room Timer	Included
HSH-1-PC	Commercial Steam Head	Included
SDT-PC	In-Room Temperature Sensor	Included
	Professional Series Generator	Included
	Industrial Grade Quick Release Electrical Receptacle	Included

## Everything you knew about commercial steam shower equipment is now obsolete!

- New industrial grade commercial generators; a game changer in commercial steam shower equipment!
- Lower maintenance costs; industry's first and only 100% Solid State CAN-bus Digital System
- Significant energy savings with our Patented SmartSteam™ Technology and superior comfort
- The safest technology, open to the atmosphere; competitive units are pressure boilers
- All system components come packaged together for ease of ordering and eliminating errors
- Fully programmable digital control system with noteworthy new functions and easy to use
- 7 day programmability: time, low and high sets for temperature, cleaning and optimized for day-to-day club settings
- PowerFlush; inner-tank cleaning system, automated pressurized decalcification system eliminates sediment build-up
- Stainless steel split-tank design adds longevity by separating the heating function from the water feed function
- Constant steam at a constant rate: no irritating steam lags or bursts
- Superior ThermaSol Heating Elements: a level of corrosion resistance far superior to copper, brass or stainless steel
- On Demand Steam; Mechanical Timer included
- Heavy Duty Industrial Plug and receptacle with 6' cord (included)
- Built-in rollers for easy installation and servicing
- 1 year parts and labor in-field warranty, 5 years at factory
- The only 2nd generation commercial equipment worldwide

### Tips:

- Open to the atmosphere vessel, the safest technology, not a pressure boiler system
- Same price for 240VAC or 480VAC installation
- NeverDown program ensures your steam room is always up and running, call 800.776.0711 for program details
- Reprogramming settings is never a worry; they are retained should there be a power failure or a NeverDown unit installed

Unit: 16.25"L x 18.25"W x 32"H

### Simply Sized

1. Calculate: L x W x H then:
2. Choose the appropriate model from above; all interior wall material is irrelevant.
3. To build a superior steam room, ceiling height should not exceed 8 feet.

For every foot of ceiling height over 8 feet use the next larger generator.

### New Upgraded Design for Lighter Duty Applications

- 1st Generation analog technology - comparable to competitors' units
- All system components come packaged together for convenient ordering and elimination of errors
- Fully programmable digital control system: convenient and easy to use
- 7 day programmability: time, temperature, cleaning and optimized for day-to-day settings
- PowerFlush: inner-tank cleaning system, automated pressurized decalcification system eliminates sediment build-up
- Stainless steel split-tank design adds longevity by separating the heating function from the water feed function
- Constant steam at a constant rate: no irritating steam lags or bursts
- Superior ThermaSol Heating Elements: a level of corrosion resistance far superior to copper, brass or stainless steel
- 1 year parts and labor warranty, 5 years at the factory
- On demand steam; mechanical timer included

#### Tips:

- Open to the atmosphere vessel, the safest technology, not a pressure boiler system
- Same price for 240VAC or 480VAC installation
- For heavy duty commercial applications see SuperDuty Series generators
- SmartSteam and CAN-Bus Digital System only available on SuperDuty Series generators

# Commercial – 2, 3, or 4 Room Day Spa Package Designed Specifically for Day Spas

Unit: 18.5" L x 13.875" W x 18" H

## Simply Sized

1. Calculate: L x W x H then:
2. Choose the appropriate model from above; all interior wall material is irrelevant.
3. To build a superior steam room, ceiling height should not exceed 8 feet.

For every foot of ceiling height over 8 feet use the next larger generator.

## Commercial Day Spa – Complete with generator, controls and steam heads

#### In the rich tradition of Authentic Finnish Steam Saunas

Surrender to the spell of an age-old tradition of Finland – the sauna. Richly handcrafted, a ThermaSol sauna is a valued addition, distinctive, classically beautiful and a rewarding journey into the past. Why settle for an imitation when you can have an original?

#### A Sauna is only as good as its heater!

The heater is the foundation upon which the sauna is built. The cold hard facts are, without two vital components, a large rock capacity and rocks in direct contact with the elements, you will not have a genuine Finnish sauna.

ThermaSol sets the standard by using only "peridotite" or "konno" rocks imported from Finland. And yes, the rocks are in direct contact with the elements. This direct contact of rocks and heating elements results in a soft, diffused heat source. Contrary to what you may have heard, water being ladled onto the rocks to create steam is a vital part of the sauna experience.

#### ThermaSol Sauna Heaters are manufactured with these outstanding features:

- Triple wall construction for safety
- Stainless steel elements that resist corrosion for longevity
- Built-in control located on heater
- Stones included peridotite (igneous type stone similar to granite) - 50 lb. box

## Commercial Sauna Heaters

20" W x 19" D x 29" H

### Commercial Sauna Heaters (15" W x 7" D x 16" H)

# We're Here to Assist in Designing a Home Spa

Creating a home steam shower environment is easier than you think. We employ a wide array of customer service professionals to answer your questions both before and after the sale either by phone, in-person or via email. Installation instructions for all of our models are conveniently located on our website in PDF format for your review. We also have a facility-trained field support staff that aids in the development of each home spa, no matter the query.

Please contact us at phone: 800.776.0711 fax: 800.556.5257  
www.thermasol.com

**WARNING:** Always have shower closed when steam shower is operating.

Do not use this product unless you have consulted with your doctor and received written permission to do so. Use of this product may be hazardous to your health.

Never attempt to fill aroma reservoir on the steam head when unit is in the "ON" position. Severe burns will occur.

Steam is HOT! Do not touch or go near the steam head from the time the unit is "ON", up to one hour after it has shut off. Severe burns will occur if you come in contact with the steam head or steam emitting from the steam head.

Your shower may be a slip and fall hazard. Check with your contractor or flooring manufacturer regarding the safe use of your flooring in a steam application. Slipping and falling into the steam head itself or into the stream of steam emitting from the steam head will cause serious burns, or physical injury.

If you are feeling dizzy, faint or starting to fall asleep immediately exit the steam room.

Do not use steam room under the influence of alcohol or drugs, as this can be hazardous to your health.

Do not use aromatherapy oils or skin care products or any product in conjunction with your steam unit without consulting with your allergist or doctor before use. These products may be hazardous to your health.

Do not use steam room if you are under the age of 16 unless you are supervised by an adult.

Specifications and prices are subject to change without notice. All prices shown are in US dollars. All products must be installed in accordance with installation instructions provided. Failure to do so may invalidate warranty at manufacturer's discretion. After January, 2011 please confirm pricing. Terms: All orders NET 30. Minimum order - \$15.00. All Sauna Equipment FOB Factory. All Steam Equipment FOB California Restocking charge of 15% for pre-approved returned merchandise. All returns require a ThermaSol RMA number. ©2012 ThermaSol.
